RC 44 EVENT CALL 01 (Old 04)

Question

When would the umpires consider the spinnaker being in the process of hoisting?

Answer

The umpires will consider the spinnaker as being in the process of hoisting when the spinnaker head is continuously moving upwards and the spinnaker would fill on the course the boat is sailing at that time.

The bowsprit extending, or the tack being pulled out will not be considered as hoisting.

EVENT CALL 02 (Old 05)

Question 1

Can a boat after having missed a rounding mark, correct this error after having crossed the finishing line from the course side?

Answer

No.

Question 2

In a match race both boats fail to round a rounding mark and then cross the finishing line. Neither boat protests. How will the race be scored?

Answer

The race will be scored 0-0 and the race will not be resailed.

EVENT CALL 03 (Old 07)

Question

When would the umpires consider a boat has a controlling position?

Answer

The umpires will consider a boat has a controlling position over the other boat in her match when she is ahead and able to manoeuvre towards the next mark without impediment or in a position to be able to impede, affect or change the actions of the other boat. If both boats are able to impede, affect or change the actions of the other boat neither boat may have a controlling position.

RC 44

EVENT CALL 04 (Old 08)

Umpires shall not change their decisions, but they may promptly correct a visual signal that was displayed in error.

This will be accompanied by a further sound signal.

August 2014

RC 44
EVENT CALL 05 (Old 09)

Two boats approach each other on opposite tacks and Starboard clearly signals to Port that Port can cross in front of her.
Port crosses and Starboard immediately protests Port for not keeping clear.

What action should the umpires take?

If the Umpires are absolutely certain that the signal by Starboard was clear and:

- a) Port was not keeping clear, then penalize Starboard for breaking rule 2.
Port is exonerated for breaking rule 10 by rule 64.1(a).
- b) Port was keeping clear, then display the green and white flag.

EVENT CALL 06 (Old 10)

Request for a delay before the starting procedure in Match-Race and in Fleet race:

Match-Race

The matches will start in the order as provided by the pairing list attached to the SI. The Race Committee will not delay the starting procedure or change the order of matches in the next flight when requested to do so by a competitor.

Fleet Race

The Race Committee will consider a request for a delay due to a breakdown between races. This delay will not exceed a total of 20 minutes from either the announced time of a Warning Signal or the original intended time for a Warning Signal as determined by the Race Committee.
